## **Fly With Electric Or Glow Power! The Ultimate Second Airplane!**

The 4-STAR 64 EG ARF is a great choice for transitioning student pilots from high-wing trainers to low-wing aerobatic aircraft. With its low wing, semi-symmetrical airfoil, and light wing loading, the 4-STAR 64 takes you to the next level with all the basic aerobatics and whoop-dee-dooos your thumbs can conjure up. Intermediate and advanced fliers also appreciate the 4-STAR 64's simple construction, ease of assembly, and super flight performance. This is an airplane you will enjoy taking to the flying field every time.

The 4-STAR 64 is designed to get you into the air quickly with a traditional handcrafted balsa wood ARF. All wood parts are CAD-drawn, laser cut, and factory jig assembled, so everything fits the way it should.

Magnetic Hatch for Quick Access

The lightweight airframe is very rugged and has been expertly covered with Oracover® (aka Ultracote®) premium film. Available in yellow or red base colors with complete factory applied markings.

The 4-STAR 64 EG ARF is designed for either Electric or Glow Power. The 4-STAR 64 EG flies well with a 2-stroke glow engine, a 4-stroke glow engine, or a brushless outrunner electric motor with a 4-6 cell lipo battery. It's your choice!

Easy-To-Transport 2-Piece Wing

Painted Fiberglass Cowling

**SPECIFICATIONS:**

<b>Wing Span:</b>	64 in.	1625 mm
<b>Wing Area:</b>	847 in <sup>2</sup>	54.6 dm <sup>2</sup>
<b>Length:</b>	57 in.	1447 mm
<b>Flying Weight:</b>	7 - 8.25 lbs.	3175 - 3742 g
<b>Wing Loading:</b>	19 - 22 oz./ft <sup>2</sup>	58 - 68 g/dm <sup>2</sup>
<b>Radio Required:</b>	4-Channel with 5 Standard Servos (glow) (not included) 4-Channel with 4 Standard Servos (electric)	
<b>Glow Power:</b>	2-Stroke .60 - .75 cu. in. (10.0 - 12.3 cc) (not included) 4-Stroke .60 - .90 cu. in. (10.0 - 14.7 cc)	
<b>Electric Power:</b>	1200 - 1700 watt Brushless Motor (400-600 kv) (not included) 75A Speed Control (ESC) 4-6S 4000 - 5000 mAh Lipo Battery Pack
