

62555 PNP HSD Skyraider 1600mm

The Douglas A-1 Skyraider (formerly AD) was an American single-seat attack aircraft that saw service between the late 1940s and early 1980s. The Skyraider had a remarkably long and successful career; it became a piston-powered, propeller-driven anachronism in the jet age, and was nicknamed "Spad", after the French World War I fighter. It was operated by the United States Navy (USN), the United States Marine Corps (USMC) and the United States Air Force (USAF), and also saw service with the British Royal Navy, the French Air Force, the Air Force of the Republic of Vietnam (VNAF), and others. In U.S. service it was finally replaced by the LTV A-7 Corsair II swept wing subsonic jet in the early 1970s.

Brushless Outrunner Motor Change to 5060-6S/270KV

	16X6/Propeller
	Brushless Outrunner Motor, 5020-6S/300KV
	80A Pro Brushless ESC (6S)
	Servos:(metal shell and digital servos)9g*8PCS
	Battery : 22.2V 4000-5000mAh 40C Li-Po
	Radio System : 2.4GHz 6CH Transmitter and Receiver
	Length:1232mm Wingspan:1600mm Weight:3120g
