

PN:62600r Sky Trainer 55"

The durability of the EPO foam has been further bettered with a high gloss surface finish and factory applied decals.

Stability and predictability are two strong points of this airframe and together with the high power brushless motor, scale 3 blade propeller and long duration LiPo battery, it results in a great trainer and intermediate aircraft.

New Feature :

- 2 Piece Composite Main Undercarriage and scale steering nose wheel.
- 5 LED Navigation Lights: Red, Green, 2 Ultra bright white on wings and Flashing Red on Vertical Stab
- Pilot and Detailed Dash
- Flaps
- 3 Blade Propeller and Chrome Spinner
- Tinted Clear Canopy
- Carbon Wing Tube
- Large Battery Hatch
- Receiver Hatch
- Removable EPO Cowl
- Wing Servo Cable Ducting
- Higher Power Motor
- Increased Battery Capacity

Wingspan	1,410mm/55.5in
Overall Length	1,100mm/43.3in
Flying Weight	Around 1,520g
Motor Size	Brushless 3536-KV850
ESC	35A with 4A SBEC
Servo	9g Servo x 6
Radio	6 Channel
CG (center of gravity)	60mm (From Leading Edge)
Prop Size	11*9
Recommended Battery	Li-Po 11.1V 2200 mAh 25C
Aileron	Yes
Elevator	Yes
Rudder	Yes
Flaps	Yes
Retracts	No
Approx. Flying Duration	6 minutes
Minimum Age Recommendation	14+
Experience Level	Beginner
Recommended Environment	Outdoor
Assembly Time	45 minutes
Is Assembly Required	Yes
Material	Durable EPO
Package Options	PNP
Requires	PNP requires Radio System, Battery and Charger
